MASSACRED BY MINERS

Terrible Butchery Reported From the Australian Gold Fields.

FOUND A MOUNTAIN OF GOLD

Their Provisions-Fiji Islands Swept by a Storm.

VANCOUVER, March 14.—By the mail fory from the distant gold fields of restern Australia, hardly credible, if it not been borne out by the arrest of everal of the ringleaders in the most exrible tragedy that has yet been enand in the lawless Coolgardie. Fabuous finds have lately been reported from Minety Mile Point, nuggets weighing between 50 and 150 ounces of pure gold being picked up on the surface of the round. These stories made men mad with lust for gain, and prospectors pashed on for hundreds of miles in the wilderness. They had scarcely enough food and water to keep them alive.

They were brought back raging with fever and placed in the Coolgardie hospital, already overcrowded with dying

The fate of these desperate men did possible. I see no reason for anticipating a syndicate, and with heavy packs whether the Italians killed were Amerof provisions, water and rifles started from Ninety-Mile Point to penetrate into the interior. They started Dec. 1 of last year and, nothing being heard of them since, it was supposed that they had met death. Dan Robertson, one of the syndicate, returned from his camp, 120 miles from Coolgardie Jan. 20 and confessed to the police that after discovering a mountain of gold, the party re-turning to camp found that a band of ship Allianca. They find that the deblacks had stolen all their provisions. The syndicate pursued the blacks to their village and butchered the entire mes.mpment, shooting the men and braining the women and children. The ther murderers have been arrested. The olid hill of quartz which the syndicate found is 70 feet high, 250 feet wide at | win M. Stanton on July 28, 1860. It the base and 15 feet at the summit, full applies to the high seas, there being no up to the estimate and prices at the yards of gold. The rush is settling into the cene of the find.

FIJI ISLANDS STORM SWEPT.

Sucra, the Capital, In Ruins and Plants

VICTORIA, B. C., March 14.-Particulars were received by the Australian mail of a terrible harricane which swept over the Fiji islands a few weeks ago. and the first effects of which were still a topic of discussion when the Mirowa louched at Sueva. It was this storm in which several vessels came to grief with amentable loss of life, and buildings in Sueva, the capital of Fiji, suffered very severely. The town is comparatively in debris, having been the center of the hurricane. Cocoanut and banana planations were badly damaged. The hurricane was accompanied by a fearful, driving rain, penetrating everything. The storm continued until 5 o'clock Monday afternoon and then gradually

The food supply of the people is enrely follow such a storm, see sine, disease and too often death. By far the largest number of natives be-long to the Methodist church of this col-ony, and missionary societies are taking as to give relief. A correspondent writes: "The cyclone traveled from east to west. We had the last blast about 6 p. m. Sunday. Though it then blew a gale of hurricane force nearly all night, it seemed to be almost calm compared with the frightful reality of the cyclone.

"On Monday morning what a sight the island presented. All houses in the native town were leveled, nearly all the cottages blown down or blown away. The place had just the appearance of having been bombarded for weeks past by all the fleets on earth or sea, the round being strewn with cocoanuts, looking like cannon balls, only no cannousding could have caused the devasation which was everywhere visible."

Advices From Honolula. HONOLULU, March 7.-Excitement over the recent rebellion here is gradually quieting down. The Hawaiian goverament is now directing its principal attention toward the abettors of the insurrectionists, who are now on American soil. W. A. Kinney, who acted as judge advocate of the military commisdon which tried the rebels, is among the passengers who will leave on the steamer Arawa for San Francisco today. He carries with him the testimony and affidavits in the schooner Wahlberg case. The Wahlberg is the vessel which landed arms for the rebels and which is now detained at San Diego, Cal. Mr. Kinney is accompanied by George Townsend and Charles Warren, half whites, both of whom spent several days on the schooner while she was lying off the would have to be operated in the intercoast waiting to land arms for the reb- est of protecting the securities of these els. They will be able to identify the other properties and was inequitable to vessel and the captain and crew of the junior lien holders of the Short Line. Alarming Epidemic In Halifax. HALIFAX, March 14.—An alarming idemic is raging among horses in this city and the disease is easily contracted by human beings who come in contact with the infected animals. Veterinarians pronounce the affection equinal smallpox and many of the horses in Halifax are victims. The government veterinary surgeon has the disease in his right hand. Another man, more seriously affected, will have to have his arm amputated to save blood poisoning, and another is beleved to be fatally ill as a result of handling the diseased horses. The government veterinary urgeon says the disease is atmospherio and any animal is liable to contract it.

Revolutionists Greatly Pleased. New York, March 14.—In the Cuban colony the firing upon the American steamer Alliance by a Sp mish man-ofwar was eagerly discussed. The revolutionist appeared to be greatly pleased at the prospect of a fleet of United States men-of-war being sent to protect American merchantmen in the vicinity of Cuba.

MUNTURE'S REPLY TO UHL. Not Yet Known Whether the Italians Were

WASHINGTON, March 14.—In reply to the telegram sent yesterday to the governor of Colorado by Acting Secretary Uhl, at the instance of the Italian ambassador, the following reply has been received from Denver: "Since wiring you I have received the following from the sheriff at Walsenburg: 'Last night while conveying prisoners from Royae while conveying prisoners from Rouse to Walsenburg an armed mob held up the posse, killed the driver and one prisoner; two prisoners ran and have not since been found. Don't know whether they were killed or not. This occurred about 7 p. m. At-1 a. m. a mob broke into the jail and shot to death two prisoners implicated in the same murder. All were .Italians except the driver.'
- "On receipt of which I telegraphed

him as follows: 'Wire me at once whether you are maintaining order and protecting prisoners and whether you have a sufficient force to prevent a recurrence of violence to prisoners. Take every precaution to protect life and property and as soon as possible ascertain who composed the mob which did the lynching, and as soon as practicable arrest them.'

"To which I received the following reply: Everything is quiet tonight. Have not found the two prisoners that got away at the time they were being held up by the mob.' Will obtain and forward full information as promply as ican citizens. ALBERT B. MCINTYRE."

SPANISH SHIP HAD THE RIGHT. Did Not Violate the Law by Firing Acros

the Bows of the Allianca WASHINGTON, March 14.—State de partment officials and Senor Meragua, the Spanish minister, have compared notes on the law applicable to the firing partment of justice has already specifically ruled on the right of a warship under certain circumstances to fire blank cartridges and then solid shot across the bows of a merchant ship in order to command a halt. The opinion was rendered by Attorney General Edthe Allianca was inside Cuban waters. From this it appears, in the judgment of Senor Meragua, that the Spanish

ship kept within the strict letter of the law as laid down by the United States. This still leaves open the question whether the Spanish ship fired the shotted gun "across the bows" of the Allianca, or directly at her. Captain Crossman, of the American ship, contends that the shots were fired to hit. The Spanish government is yet to be

heard from on the point. No Official Demand From Madrid. WASHINGTON, March 14.—There has been a space of seven days since the cable report came from Madrid that a cabinet council had agreed to ask the recall of United States Consul Williams at Havana. Since then there has been no official demand for his recall. Mr. Williams has stated in Havana that he had not heard of the contemplated rehad not heard of the contemplated re-call, and yet the Spanish officials at Madrid have not denied the original re-port that a demand for his recall had been agreed upon. Under these circum-stances officials intimate that the return of President Cleveland from his hunting trip and the recovery of Secre-tary Gresham from his attack of grip will lead to a clearing up of the situa-

ARGUMENT IN RECEIVERSHIP CASE Ex-Senator Sanders Represents the Amer

can Loan and Trust Company. PORTLAND, Or., March 14.-Ex-Senator Sanders of Montana, one of the attorneys of the American Loan and Trust company in the Oregon Short Line and Utah Northern receivership, began the argument against the demurrer to the bill. The proposition laid down was, he said, that the road must have the present receivers, though they are receivers of other community roads. This, he claimed, was not equitable, even though the proposition was made by senior security holders because those security holders were interested in Union Pacific securities of properties the receivers operate. He said it was equiavelent to saying the Short Line and Trust company claimed in these proceedings was that secured to them by contracts that they acquired when they paid over to the Oregon Short Line and Utah Northern Railway company \$11,000,000. This right, he said, was one that could not be taken from them and that they were entitled to possession of the road as provided in their mort-

SEARCHING FOR A MILLIONAIRE.

The Mysterious Disappearance of Sir George
W. Northedge In Chicago.
CHICAGO, March 14.—Search is being made in Chicago by agents for Sir George W. Northedge of Somersetshire, Eng., and the possessor of a fortune of something more than \$2,000,000, who has mysteriously disappeared, and, it is feared, has met with foul play. Thirty years ago Sir George was a painter and contractor in a small way in this city. After going to England and proving his claim, Sir George sailed for America and landed safely in New York, as is known by a letter written by him to a lady in England shortly after leaving the steamer. The letter speaks of com-

SHE FOOLED THE BAILIFF.

Done Denogram Gives an Exhibition of Hor Denievity as a Talac. Dora Donegan, one of the most skillful thieves known to the police, gave an exhibition of her art Monday morning at the Harrison Street police station, which gave Bailiff Vogel a still greater opinion of her dexterity. She had been arrested in pursuance of a standing order given by Chief Brennan to lock her up on sight and was arraigned before Justice Foster. She was discharged, as there was no evidence against her. Before leaving the courtroom she stopped

to chat with the bailiff. "You are pretty clever, Dora," said Vogel, "but if all men were as hard to rob as I would be you'd have to do something else for a living." "Oh, some day some one will fool

you, too," said Dora. The two stood talking for a few minutes, and then the woman left the room. Shortly afterward Bailiff Vogel found that his diamond scarfpin was missing. In an excited manner he called the attention of several officers to his loss. and they began to search the room, as the bailiff thought it had dropped from his scarf to the floor somewhere. While they were engaged in the search the Donegan woman approached Vogel and

"Have you found your pin?" "No," replied Vogel.

"Well, here it is," said the woman. "Be careful next time when you brag about yourself. I just wanted to show you that you would be an easy mark," and she went away laughing. - Chicago
